

Project Scheduling Principles

Your journey to project scheduling mastery begins here.

You've already got the basics you say? So then meeting budgets must be no problem. Resources are easy to predict. And of course, the critical path is clear, and your baseline, durations and percentage complete are accurate. Well, maybe there's more to the "basics" than first meets the eye. This course lays a strong foundation in best-practice, modern scheduling concepts, setting you up to be a scheduler far above average. Put your scheduling skills to the test while building virtual buildings. Race against the clock and watch out for natural disasters!

SAMPLE TOPICS

Terminology, roles, process

"Fragnet," "hammock," "negative float," "sponsors," "cost engineers," "development," "maintenance," "control": these are but a few of the concepts we define and explore relationships among.

Managing resources

Ensure that resources are truly resources, that is, things that help the schedule, not hurt.

COLONNADE CURRICULUM

Expert-led classes covering the most powerful concepts for managing and operating the built environment

REGISTRATION

\$349

per course

MORE SAMPLE TOPICS

Utilizing baselines
Tracking progress the right way.

Schedule analysis
Identify trends signaling potential delays and future schedule issues.

Quality checking
Clean up the chief causes of schedule drift, like faulty logic, poor detail, and false resources.

Effective communications
Transmittals, submittals, reports, presentations all play vital roles in keeping your schedule useful and consistent.

COMMON TO ALL COURSES

Colonnade Course Kit

A few days before your course, we will drop ship a collection of goodies to help with class exercises and keep you energized.

Duration

2 four-hour sessions over two consecutive days (8 hours total). In these jam-packed sessions time doesn't crawl by, it rockets past!

Frequency

Each course runs 2-3 times a month, at variety of times, so that you can find one that fits your time zone.

Prerequisites

You'll need a computer and internet connection, as well as a way to share audio and video (typically your computer or smartphone).

Credits

Each course qualifies as 8 hours of Project Management Professional (PMP®) continuing education credits.

Takeaway

You'll leave class with the valuable knowledge and skills we covered throughout the course and the opportunity to make new business contacts with fellow students and instructors. Use our PDF filled with the topics, exercises, and notes covered in class to serve as an ongoing reference.
