Agile for Leaders

Finally, find the value and benefits of the Agile approach to teams in your organization

Everyone has heard of "agile," "scrum," and "stand up." But, what do they actually achieve, and how do you successfully implement them? This course takes a deep dive into the values and principles behind the popular Agile approach to project and team management, helping you leverage them within your own organization. Whether you are using this to enhance your digital transformation, enlighten your development team, or put the principles in place for streamlining processes, this interactive course will put you on a team as you journey through the Agile practices.

MORE SAMPLE TOPICS

Compare Agile to Other Methodologies

Uncover how Agile compares to other, more classic methodologies.

Agile Components

Go through all the areas of the process, including how to properly size and prioritize your product backlog, how to write effective user stories, how to plan your sprint and deliver results and much more.

Scrums

Learn typical scrum rules and how to use these daily meetings to track progress and keep your team aligned and informed.

Sprint Reviews & Retrospectives

Find out how to facilitate conversations with stakeholders, handle changes and adjustments, and reflect on lessons learned.

COMMON TO ALL COURSES

Colonnade Course Kit

A few days before your course, we will drop ship a collection of goodies to help with class exercises and keep you energized.

Duration

2 four-hour sessions over two consecutive days (8 hours total). In these jam-packed sessions time doesn't crawl by, it rockets past!

Frequency

Each course runs 2-3 times a month, at variety of times, so that you can find one that fits your time zone.

Prerequisites

You'll need a computer and internet connection, as well as a way to share audio and video (typically your computer or smartphone).

Credits

Each course qualifies as 8 hours of Project Management Professional (PMP®) continuing education credits.

Takeaway

You'll leave class with the valuable knowledge and skills we covered throughout the course and the opportunity to make new business contacts with fellow students and instructors. Use our PDF filled with the topics, exercises, and notes covered in class to serve as an ongoing reference.
