

COLONNADE

Health Care Courses

Build your expertise for the health care built environment

Colonnade is Enstoa's collection of expert-led classes focusing on the most powerful concepts for managing and operating the built environment. The virtual courses can be purchased and completed from anywhere in the world. This is not just another webinar where you log on, mute yourself, and listen to someone drone on for a few hours as you struggle to pay attention. Colonnade uses an interactive approach, consisting of lively discussions, activities, and games to encourage participation and enhance the learning experience.

HEALTH CARE COURSES

Cost Management for Capital Projects

Learn how to keep your projects on-time, on-budget, and on-quality.

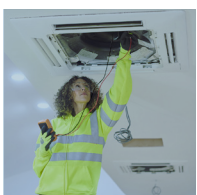

Facilities Asset Management Essentials

Increase the value of your CMMS package.

Implementing BIM for Owners

Organize and use building information to manage your organization's physical environment more effectively.

Principles of Facilities Management Analytics

Leverage the data of your EAM/CMMS package for actionable analysis.

Intensive

In a mere eight hours, we cover more ground than a typical self-directed learner could scrounge up in a month.

Expert-led

Nothing can replace the best-practice-based technique and adaptive interactivity our instructors provide.

Hands-on

Enstoa brings knowledge from managing actual projects into the class with real-life scenarios.

Engaging

We have more than a few tricks up our sleeve to keep eyes wide open and conversation lively in a virtual format.
